WE learn that Dr. S. P. Townsend has sold out the good will of his Sarsaparilla business, including machinery and raw material on hand, for the large sum of \$100,000 .-This is an illustration of the advantages and benefits of advertising. The purchasers are Messrs. Nostrand & Bach, both wealthy and well known individuals. They have, we understand, employed the celebrated Chemist, Dr. James R. Chilton, who will hereafter have the compounding department under his own immediate supervision. They are men of enterprise, and will, no doubt, sustain the character of this celebrated medicine, which has the reputation of being the best preparation of Sarsaparilla made in the United States. The new proprietors, we understand, warrant their article to stand in all climates any length of time, which we have no doubt of, when manufactured by so practical a chemist as Professor Chilton, who is well known to be one of the first chemists in this country.

The public are hereby notified that the preparation extensively known as Dr. S. P. Townsend's Compound Extract of Sarsaparilla, is now manufactured under my direction and supervision, from the original recipe obtained from Dr. S. P. Townsend, and I certify that it is composed of ingredients purely vegetable, and without Mercury—and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effects.

The undersigned, wholesale Druggists in the city of New York, have sold Dr. S. P. Townsend's Compound Extract of Sarsaparilla for several years, and consider it the Ori-

Among the numerous discoveries Science has made in this generation to facilitate the business of life, increase its cujoyment, and even prolong the term of human existence, none can be named of more real value to mankind than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt that no medicine or combination of medicines yet known can so surely control and cure the numerous varieties known can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures affected by its use, but we would present the following opinions of emineut men, and refer further enquiry to the circular which the Agent below name 1 will always be pleased to furnish free, wherein are full particulars and indisputable proof of these facts. From the President of Amberst College, the celebra-

ted Professor Hitchcock. "James C. Ayer—Sir: I have used your Cherry Pectoral in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution, that it is an admirable compound for the relief of laryngial and bronchial difficulties. If my opinion as to its superior character can be of any service, you are at liberty to use it as you think proper.

SACO, Me., April 26, 1849. Dr. J. C. Ayer, Lowell—Dear Sir: I am now constantly using your Cherry Pectoral in my practice, and prefer it to any other medicine for pulmonary complaints. From observation of many severe cases, I am convinced it will cure coughs, colds, and disenses of the lungs, that have put to defence all other remedies. fance all other remedies.
